

CORTIS

HIGH GRADE MACHINE OILS

USES

- Total loss lubrication (oil cans, drip feed lubricators, mist) or cranks:cases:
 - . of machines,
 - . of linkages,
 - . of bearings,
 - . of gears,
 - . of chains and cables,
 - . etc...

PROPERTIES

- Pure mineral oils.
- High viscosity index.
- Excellent natural resistance to oxidation.
- High flash point.
- Compatible with seals suitable for mineral oils.

CHARACTERISTICS

CORTIS	Units	32	46	68	100	150	220	320
Density at 15°C	kg/m ³	870	877	884	886	890	897	900
Viscosity at 40°C	mm ² /s	32	46	68	100	150	220	320
Viscosity at 100°C	mm ² /s	5,7	7,1	9,1	11,3	15,3	19,2	25
Viscosity index	-	100	99	97	96	96	96	96
Cleveland flash point	°C	210	230	240	250	260	260	270
Pour point	°C	- 12	- 12	- 9	- 9	- 9	- 9	- 9

The typical characteristics mentioned represent mean values.
