

## MONOGRADE OIL FOR TWO STROKE DIESEL ENGINES

### APPLICATIONS

#### Specific engines

- For all two stroke Diesel engines when API CF-2 or API CD II specifications are required.
- **TOTAL RUBIA CF-2 40** particularly adapted for lubrication of two stroke DETROIT DIESEL engines.

### PERFORMANCE

#### Classification

API : CF-2

#### Meets manufacturers' requirements

DETROIT DIESEL : Oil typ 1 and 2 for series: 53, 71, 92, 110 and 149 Marine

### CUSTOMER BENEFITS

- Good antiwear and anticorrosion properties
- Excellent anti-oxidation properties allowing long time idle or very severe working conditions of the engine (hot climates, mountains, extra load...)
- Low ash value ensuring a good engine cleanliness.
- Very high detergency and dispersancy level

### CHARACTERISTICS

RUBIA CF-2	Units	40
Viscosity at 100°C	mm <sup>2</sup> /s	14,5
Viscosity index	-	98
TBN	mg KOH/g	7.3
Pour point	°C	- 15
Sulfated ash	% weight	0,77

The values of the specifications shown in this table are typical values given as an indication only.
