

MARINE STERN TUBE HEAVY

To lubricate stern tube bearings and provide a seal against water entry into vessel.

APPLICATIONS

- Heavy grade ISO 680

CUSTOMER BENEFITS

- Good emulsification
- High film strength and spreading ability
- Resistance to scouring
- Extreme pressure performance
- Thermal stability

CHARACTERISTICS

MARINE STERN TUBE HEAVY	Units	
Density @ 15°C	Kg/l	0.922
Viscosity cSt @ 40°C	cSt	680
Viscosity cSt @ 100°C	cSt	36.0
Viscosity Index	-	95
Flash point COC °C	°C min	260
Pour point	°C	-3
Copper corrosion (IP 154)	°C max	1A

The typical characteristics mentioned represent mean values.
